

This course qualifies for 7 Continuing Education (CE) hours in the Energy and Atmosphere category of the GBCI's LEED Credential Maintenance Program (CMP).

About the Instructor

Everblue Energy is committed to helping the construction community build LEED certified buildings.

Everblue is a veteran-owned company whose staff includes HERS raters certified by Energy Star's RESNET program and LEED Accredited Professionals with a thorough understanding of green building practices and principles and the knowledge to successfully steward the respective design and certification processes. Their field specialists continuously undergo building science training, to stay up to date with the most current industry standards.

Everblue Training Institute is a certified provider of LEED education by the USGBC.

What others have said about Everblue

"Most knowledgeable instructor I have had in a long time. You cut out the extras, presented the important test info, gave us real tools to use, and are knowledgeable enough to handle all questions without getting thrown off. Great class."

Immerse yourself into the business of solar and you will quickly see how to use your knowledge of solar to yield profit. Knowing solar energy may put you steps ahead of your competition, but understanding how to use that skill to your advantage puts you miles ahead!

This one-day course saves you the time and money you would spend figuring out how to market your business on your own!

The Business of Solar

Ensure Solar Success: Know the Business of Solar

Associated Builders and Contractors of Georgia, Inc.

Prepare yourself with all the practical business aspects of renewable energy you could use:

- Identify the role of primary and secondary energy sources in our society
- Classify useful energy conservation methods
- Identify the PV industry and how much energy a PV system will produce
- Recall the costs of organizing and staffing a solar business
- Recognize effective sales strategies for a solar business
- Distinguish the benefits of solar PV systems in the real estate market
- Identify job opportunities and resources in the photovoltaic industry
- Demonstrate an understanding of Solar PV market suppliers

Course includes:

- ✓ Live Instruction
- ✓ Handouts
- ✓ Certificate of Completion
