

Who Takes the Green Associate Exam Prep?

This course is for those who are new to LEED, have done little or no exam preparation, or who simply prefer a comprehensive program in a classroom setting.

It is ideal for facility owners, contractors, architects, lawyers, builders, engineers, product representatives, facility managers, real estate brokers and anyone interested in green building principles.

This class qualifies as a "Green Education Program," required before taking the Green Associate exam. Students will receive certificates of attendance at the end of class.

For information on LEED 2009, visit the USGBC's website—www.usgbc.org.

About the Instructor

Everblue Energy is committed to helping the construction community build LEED certified buildings.

Everblue is a veteran-owned company whose staff includes HERS raters certified by Energy Star's RESNET program and LEED Accredited Professionals with a thorough understanding of green building practices and principles and the knowledge to successfully steward the respective design and certification processes. Their field specialists continuously undergo building science training, to stay up to date with the most current industry standards.

Everblue Training Institute is a certified provider of LEED education by the USGBC.

What others have said about Everblue

"Most knowledgeable instructor I have had in a long time. You cut out the extras, presented the important test info, gave us real tools to use, and are knowledgeable enough to handle all questions without getting thrown off. Great class."

-Danna Seigle
McMichael's Construction

Join today's hottest industry and become a certified LEED Green Associate! Developed by the U.S. Green Building Council, LEED is the most distinguished and widely accepted environmental design and green building certification. This 2-day course supplements individual preparation for those interested in passing the Leadership in Energy and Environmental Design (LEED®) Green Associate exam.

If you are planning to take the Green Associate exam, this test preparation course will help you pass. Sample questions and credit summary sheets will be presented and discussed throughout the course. After every 15 minutes or so of learning, the instructor will stop and present example test questions pertaining to the material he has just covered. By the end of day 2, you will have received access to an online simulator with 400 practice exam questions, credit memorization worksheets, a copy of the course presentation, and lots of study materials.

LEED® Green Associate Exam Prep Course

Associated Builders and Contractors of Georgia, Inc.

The LEED Green Associate Exam Prep course includes live in-class instruction with a complete review of LEED credit categories, LEED rating systems, and the LEED building certification process. Includes hundreds of simulated exam questions, a practice exam, worksheets and strategies for passing the exam.

Course Benefits

- **Improved pass rate!** Get the edge you need to pass the exam on the first try.
- **Save time!** You will receive an exact study plan that gives the best results in the least amount of study time.
- Learn from **experienced LEED Accredited Professionals**.
- Learn a **systematic analysis and breakdown** into "plain language" on how LEED certification works.
- Learn how to know when you've **studied enough**.
- Includes **4 online simulated practice exams PLUS Everblue LEED Green Associate Handbook**.

This class is taught by Everblue Energy, a USGBC-approved training company. Everblue will give you an exact study plan for the LEED exam that gives the most results in the least amount of time. Everblue recommends 20-30 hours of post-course study with the provided materials before taking the exam.

Everblue is an approved education provider by the **American Institute of Architects (AIA)**. This class is eligible for 14 Learning Units (LUs) of CEUs. For non-AIA members that need continuing education for their profession, a course certificate is available for CEU self-submittal.
