About the Instructor

Everblue Training Institute is committed to helping the construction community build sustainable buildings.

Everblue is a veteran-owned company whose staff includes HERS raters certified by Energy Star's RESNET program and LEED Accredited Professionals with a thorough understanding of green building practices and principles and the knowledge to successfully steward the respective design and certification processes. Their field specialists continuously undergo building science training, to stay up to date with the most current industry standards.

Everblue Training Institute is a certified provider of LEED education by the USGBC.

What others have said about Everblue

"Most knowledgeable instructor I have had in a long time. You cut out the extras, gave us real tools to use, and are knowledgeable enough to handle all questions without getting thrown off. Great class."

-Danna Seigle
McMichael's Construction

Now more than ever, energy efficiency is a key element in maintaining a healthy bottom line. Building owners and small businesses are increasingly looking to reduce costs by improving their energy efficiency. This 40-hour Professional Commercial Energy Manager course shows how to achieve the greatest savings for the least up-front cost in offices, retail, warehouses, churches, apartment buildings and other commercial buildings. It provides the essential tools for you to become a commercial or multifamily building energy manager.

Professional Commercial Energy Manager Course

Associated Builders and Contractors of Georgia, Inc.

Learn how to gain control over energy costs, optimize your maintenance procedures and maximize energy system costs. This course explores energy-saving opportunities in HVAC and refrigeration system upgrades, building envelope improvements and lighting retrofit.

How can this training help your business?

Knowing how to save energy costs can not only save your company money, it can give you a value-added service for your customers or can even give your company an additional revenue stream. This training is invaluable for anyone working in the building industry.

Who takes this course?

- Construction Managers
- General Contractors
- Commercial HVAC Contractors
- Engineers
- Architects
- Multi-Building Facility Managers
- Government Facility Managers
